Veterinary Shortage ID Code: NV111

Location of Veterinary Shortage Area for this Nomination

Note: If this nomination is for a public practice position, please provide the location of the home office or the center of service area.

Lander and Eureka Co south of I80, White Pine Co

Location of Veterinary Shortage:

(e.g., County, State/Insular Area)

Center of Service Area or

Austin (89310), Eureka (89316), Ely 89301, 89315), Ruth (89319), McGill (89318), Cherry Creek (89301)

Location of Position:

(e.g., Address or Cross Street, Town/City, and Zip Code)

Type of Veterinary Practice Area/Discipline/Specialty

☒ Type I Shortage: Private Practice

Food Animal Medicine (at least 80 percent time)

Please select **one or more** specialties requested for this position:

- | | |
|-------------------------------------|----------------|
| <input checked="" type="checkbox"/> | Beef Cattle |
| <input type="checkbox"/> | Dairy Cattle |
| <input checked="" type="checkbox"/> | Swine |
| <input checked="" type="checkbox"/> | Poultry |
| <input checked="" type="checkbox"/> | Small Ruminant |
| <input type="checkbox"/> | Other _____ |

☐ Type II Shortage: Private Practice – Rural Area

Food Animal Medicine (at least 30 percent time)

Please select **one or more** specialties requested for this position:

- | | |
|--------------------------|----------------|
| <input type="checkbox"/> | Beef Cattle |
| <input type="checkbox"/> | Dairy Cattle |
| <input type="checkbox"/> | Swine |
| <input type="checkbox"/> | Poultry |
| <input type="checkbox"/> | Small Ruminant |
| <input type="checkbox"/> | Other : _____ |

☐ Type III Shortage: Public Practice (at least 49 percent time*)

Employer: _____ Position Title: _____

Please select **one or more** specialty/disciplinary areas.

- | | |
|--------------------------|---------------|
| <input type="checkbox"/> | Food Safety |
| <input type="checkbox"/> | Public Health |
| <input type="checkbox"/> | Epidemiology |
| <input type="checkbox"/> | Other: _____ |

Please describe the objectives of a veterinarian meeting this shortage situation as well as being located in the community, area, state/insular area, or position requested above (limit your response to 200 words or less).

The objective of attracting a veterinarian to Lander, Eureka and White Pine is to fill a gaps in Lander and Eureka Co south of I80 and a significant gap in White Pine Co, respectively (mostly beef cattle, 18,000 head in Eureka Co; 32,000 in Lander Co and 27,000 in White Pine Co). There is currently one Veterinarian in Eureka who serves most of Lander and Eureka Co and part of Nye Co down to Tonopah. There are two mostly large animal veterinarians in Ely, one of which has practiced for over 30 years. The Battle Mountain, Ely, Goshute, Te-Moak, Ruby Valley and South Fork Reservations are part of this underserved area.

Please describe the activities of a veterinarian meeting this shortage situation and being located in the community, area, state/insular area, or position requested above (limit your response to 200 words or less).

2008 Census indicates that there are 116 farms and ranches in Lander Co and 73 farms and ranches in Eureka Co, approximately 85% are south of the I80 corridor. The two counties had 1,458 and 5,747 inhabitant, respectively at the time of the census, 85% of which live in this underserved area. White Pine Co includes 121 farms and ranches and a total of 9,590 residents. All communities in this area have 4H programs, agriculture and mining are the primary source of income like in most rural areas in NV. Several of the premises that currently only produce hay and row crops used to be livestock operations which currently limit their production to crops or have reduced cattle and sheep numbers because of the lack of veterinary services. Scope of work would include primarily beef cattle herd health programs, but also the most significant sheep component of any of NV rural areas as well as an increasing meat goat health program demand.

Stock and companion horses and small animals would also constitute a small part of the veterinary practice in this area. There are no animal control agencies in the area and assistance to the community under the rabies control program would very likely be part of the practice as well. A lot of the small farms and ranchettes have a selection of animals including back yard poultry, pigs, and new world camelids.

Please describe any past efforts to recruit and retain a veterinarian in the shortage situation identified above (limit your response to 100 words or less).

The State Veterinarian's office has not been involved in recruitment efforts in the past.

Please describe the risk of this veterinarian position not being secured or retained. Include the risk(s) to the production of a safe and wholesome food supply and to animal, human, and environmental health not only in the community but in the region, state/insular area, nation, and/or international community (limit your response to 250 words or less).

Veterinary Services in the area are not expected to change without an incentive to move to the area. Many ranches and operations moving in on pasture to pasture permits have minimal or no stock handling facilities. Many cats and dogs in the area remain unvaccinated or are late on re-vaccinations despite mandatory rabies vaccination in NV because owners are often not willing or able to travel the long distances to currently existing veterinary offices.

Please indicate whether you consider this situation/position a candidate for a "service in emergency" agreement (limit your response to 100 words or less). Please see solicitations for additional information regarding the obligation of participants who enter into the "Service in Emergency" agreement.

Not considered at this time.

Authorized State or Insular Area Animal Health Official or designee:

Name: Dr. Phil LaRussa

Title: State Veterinarian

Organization: Nevada Department of Agriculture

Email: plarussa@agri.state.nv.us

Telephone Number: (775) 353-3755
(Area code required)

3/25/2011

Public reporting for OMB control number 0524-0046 is estimated to average two hours, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of

information, unless it displays a current valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to NIFA, OEP, 800 9th St. SW, Washington, DC 20024, Attention Policy Section. Do not return the completed form to this address.
